

BIOGRAPHIES OF AUTHORS

	<p>Ratih Dewanti Dimyati, was born in Yogyakarta. She obtained her BSc (1983) from Faculty of Geography, Department of Hydrology, Gadjah Mada University, and Master of Agricultural Science, Lab of Regional Planning, Tropical Agriculture Division, Faculty of Agriculture, Kyoto University (1995). Since 1984-now she has been working for the Indonesian National Institute of Aeronautics and Space (LAPAN) in the field of Remote Sensing. She was the Director of Remote Sensing Application and Technology Development Center (2004-2010), and Head of Cooperation and Public Relation Bureau (2011-2013). Currently, she is a Researcher at Remote Sensing Data Processing Center, specialized in time series analysis of medium resolution remote sensing time series.</p>
	<p>Projo Danoedoro, PhD was born in Yogyakarta. He obtained his BSc degrees (1989) in the field of Technical Geography/Remote Sensing in Faculty of Geography, Gadjah Mada University, and MSc (1993) from the Department of Land Resources and Urban Science (LARUS), Rural Land Ecology Survey Division, ITC. He obtained his PhD in Centre for Remote Sensing and Spatial Information Science (CRSSIS), The University of Queensland (UQ), Australia (2007), with his dissertation: Versatile Land-use Information for Local Planning in Indonesia: Contents, Extraction Methods and Integration based on Moderate- and High-spatial Resolution Satellite Imagery. He was the Director of the Center for Remote Sensing and Geographical Information Systems/GIS, (PUSPICS) (2008-2017). Currently, he is the Head of Remote Sensing and GIS Post Graduate Study Program, Faculty of Geography, Gadjah Mada University.</p>
	<p>Prof. Dr. Hartono, DEA, DESS was born in Solo. He obtained his BSc degrees (1985) in the field of Remote Sensing in Faculty of Geography, Gadjah Mada University, obtained his PhD in Sains Natural/Ecologie University Paul Sabatier. He was the Director of the Center for Remote Sensing and Geographical Information Systems (PUSPICS) (1996-2001). He was Dean of Faculty of Geography, Gadjah Mada University (2004-2008), Director of Postgraduate School of Gadjah Mada University (2010-2016). Currently, he is Professor of Gadjah Mada University in the field of Remote Sensing.</p>
	<p>Kustiyo, was born in Kudus, Central Java. He obtained his BSc (1992) in the field of Mathematics, Faculty of Science, Gadjah Mada University, and Master of Science in Soil Science, Bogor Agriculture University (2003). Since 1993-now he has been working as a Researcher for Indonesian National Institute of Aeronautics and Space (LAPAN) in the field of Remote Sensing Data Processing Technology, specialized in time series analysis of medium-and low-resolution remote sensing time series, for more than two decades. He was the Head of Remote Sensing Data Processing Technology Division (2009-2015), and the Chief Engineer (2015-2016) in Remote Sensing Data Processing for Integrating the acquisition, processing, and dissemination system to support Remote Sensing Data Users in Indonesia.</p>
	<p>Muhammad Dimyati, was born in Solo. He obtained his BSc (1982) from Faculty of Geography, Department of Remote Sensing, Gadjah Mada University, and Master (1990) and Doctoral Degree (1997) of Agricultural Science, Lab of Regional Planning, Tropical Agriculture Division, Faculty of Agriculture, Kyoto University, Japan. Since 1983-2005, he has been working for the Ministry of Public Works, in the field of Remote Sensing, Geographic Information Systems, and Spatial Planning. He was the Deputy Assisstant of Large Scale Area Development, then Deputy Assisstant of Integrated Infrastructure, then Deputy Assisstant of Cooperation and Partnerships, then Deputy Assisstant of Formal Housing Planning of the Ministry of Housings (2005-2014). He was the Deputy of Resources for Science and Technology of the Ministry of Science and Technology (2014-2015). Currently, he is a Director General of Strengthening for Research and Development, Ministry of Research, Technology, and Higher Education (2015-Now).</p>
