

Supplementary Data

This supplementary data is a part of a paper entitled “Adsorption of Cd(II) and Fe(II) Ions by Inorganic Nanocomposites (CuO/ZnO) from Aqueous Solutions”.

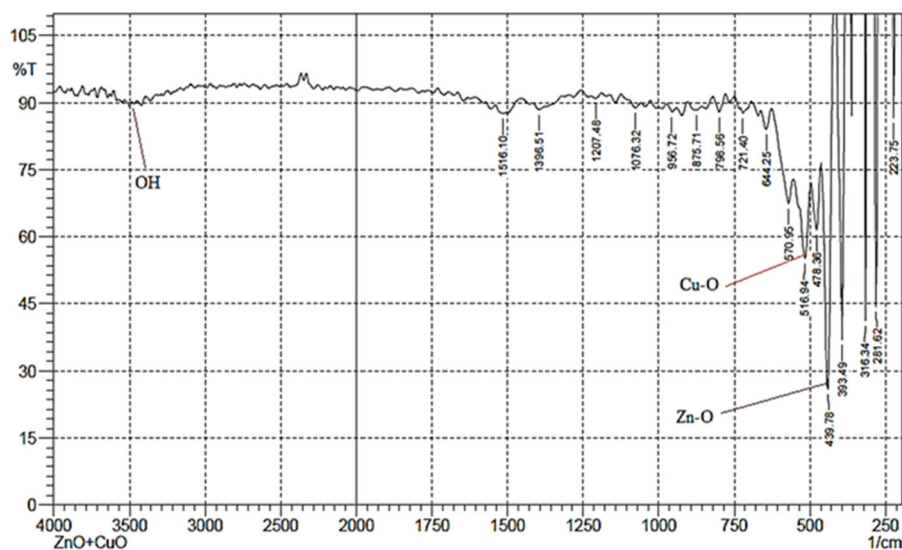

Fig S1. FTIR spectrum of composite CuO/ZnO nanoparticles

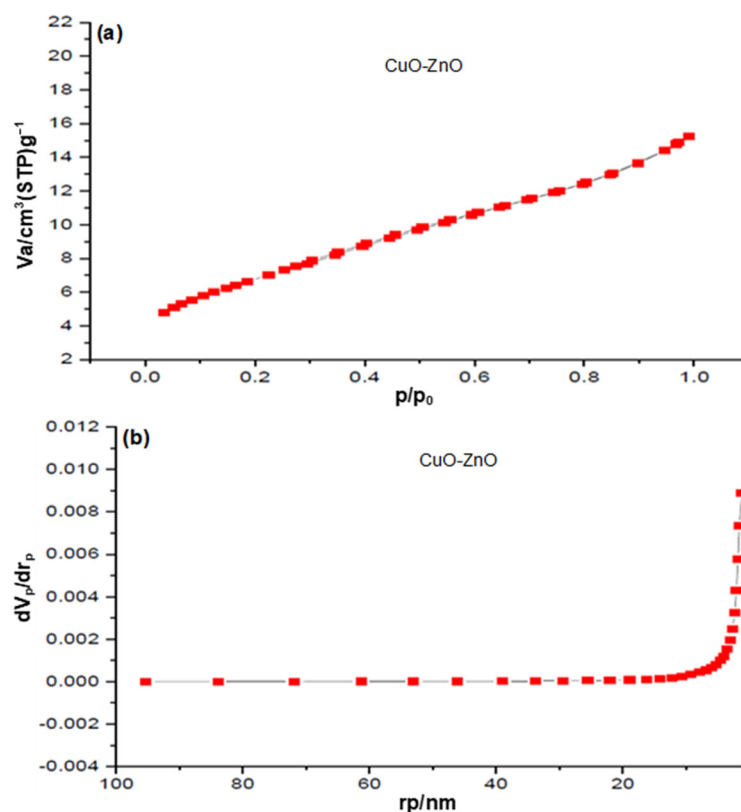

Fig S2. (a) Nitrogen sorption isotherms at 77 K and (b) pore size distributions attained from the adsorption branch of isotherm from BJH method

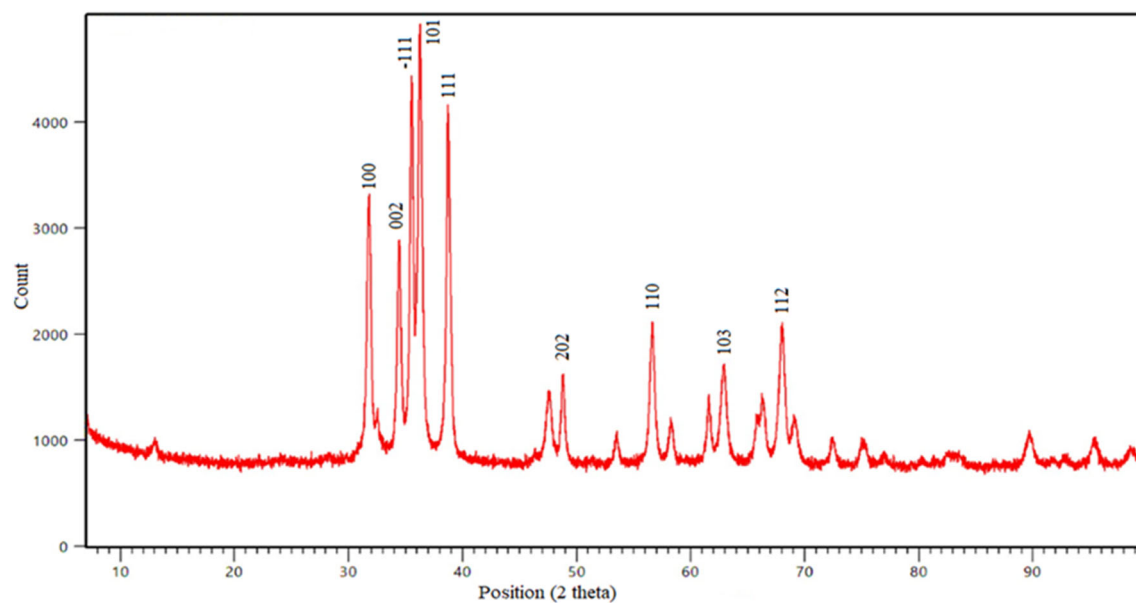

Fig S3. XRD profile of CuO/ZnO-NPs composite
