

Maret 3, 2019

Dear Editor,

It is a pleasure for the opportunity of publishing my paper in your journal. As someone with an architecture research program, I am interested to publish my paper in journal geographic as the based of architecture knowledge.

There were many papers elaborate on the diversity of Indonesian vernacular architecture. However, it did not relate to the geographical conditions that shape the architecture. This paper takes the setting of one of the regions in Indonesia that has a diversity of vernacular architecture. It discussed the architecture transformation in differences the cultures and the geographic conditions. The geographic influences were studied in detail from the typology of architecture and generally through the distribution of type architecture. In addition, this paper introduces the diversity of the vernacular architecture of Southern Sumatra besides the Limas house.

I would like to thank you for reviewing my paper. I hope to get the opportunity to publish my paper in this journal.

The suggested reviewers,
