Increase of papers number on each edition of *Jurnal Rekayasa Proses*

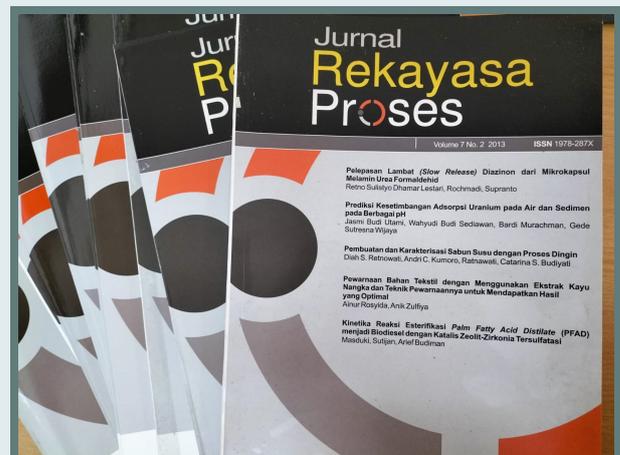

Himawan Tri Bayu Murti Petrus, Editor-in-Chief

Dear our respectable audience of *Jurnal Rekayasa Proses*,

Significant increase of awareness to share information and to contribute to the field of process engineering from both researchers and industrial engineers, has been indicated by the increase of papers submitted to the *Jurnal Rekayasa Proses*. To provide ample space and opportunity for all stakeholders, the *Jurnal Rekayasa Proses* has decided to increase the number of papers published in each edition to 15 papers, starting from volume 17(1). By increasing the number of papers per edition, we aim to promote inclusivity and interdisciplinary collaboration. We believe that breakthroughs and new perspectives will emerge at the intersection of various disciplines, which will be accommodated by the *Jurnal Rekayasa Proses*. Together, let us push the boundaries of knowledge, foster interdisciplinary integration, ignite collaboration, and accelerate scientific progress. We sincerely appreciate the continuous support from researchers and industrial engineers, and we eagerly look forward to the contributions of all stakeholders as we embark on this new chapter in our journal's publication journey.

Warm regards,
 Editor-in-Chief of *Jurnal Rekayasa Proses*

EDITORIAL

Growing Number of Journals Published in Each Edition of *Jurnal Rekayasa Proses*

Himawan Tri Bayu Murti Petrus, Editor-in-Chief

Dear our respectable audience of *Jurnal Rekayasa Proses*,

We are thrilled to share some exciting news with you regarding our journal publication practices. The publishing team of *Jurnal Rekayasa Proses* is pleased to announce that, effective immediately, we will be increasing the number of journals per issue from 10 to 15. This decision stems from our commitment to creating a vibrant and inclusive platform that accommodates the diverse range of research being conducted across various disciplines. We understand the importance of providing researchers like you with ample opportunities to share your valuable findings and contribute to the scientific community. By expanding the number of journals per issue, we aim to foster inclusivity and encourage interdisciplinary collaboration. We firmly believe that breakthroughs and new perspectives of high energy at the intersection of different fields. This increase will enable researchers from various domains to find suitable outlets for their work, creating avenues for fruitful collaborations and the exploration of new ideas. We are also aware of the challenges faced by researchers in terms of publication delays. Having more research findings to reach the wider scientific community can hinder progress. With this expansion, we aim to reduce publication backlog and facilitate faster dissemination of knowledge. Your important contributions will reach a wider audience more swiftly, allowing for accelerated scientific progress and the potential for greater real-world impact.

Furthermore, this expansion acknowledges the ever-expanding scope of research. As new areas of study emerge and existing fields evolve, it is vital to provide dedicated spaces for researchers to showcase their work. Increasing the number of journals per issue will ensure that valuable contributions from specialized domains
